

Using Sched

Sched is an online program tool that allows you to browse and save sessions, see files shared by presenters, connect with other conference attendees, and provide feedback on the sessions you attend. It can be accessed by any computer or mobile device, and it provides the most up-to-date information on schedule changes and additions.

Download the Sched app or use the online version, and get your account set up before the conference so you can begin planning your schedule and connecting with other attendees.

Get Started

You can access Sched via your laptop and mobile device. Please follow the directions below, and make sure that the device you will be using at the conference is set up appropriately. Once set up, your account will be synced when you log into Sched from any device.

Mobile Devices (Recommended)

1. Download the Sched app from the app store.
2. Search for "CATESOL2025" to find the conference event page.
3. Log in using the information sent to you in an email with this subject line: "You're Invited to CATESOL2025".
4. You can build your profile with personal information such as a bio, position title, affiliation, and photo to help others connect with you during and after the conference.
5. Navigate the online conference program through the app to save sessions you are interested in.
6. You can also view any materials shared by the presenters. See image below:
